

WCG APPLICATION AMENDMENT 1

Pertaining to the Preferred Requirement, Section 3.2, Coverage, the Wireless Communities Georgia Guidance and Application were in conflict. The Guidance text is correct and the Application text is not. The Application has been modified to the following:

The following on page 7 should be struck from the application:

Indicate the Applicant's approach to the following preferred requirements.

2. **Coverage.** WCG prefers that the network cover the entire geography of the Applicant's community or communities. Phased rollouts may be utilized to cover the entire geographical area.

It should be replaced with:

Indicate the Applicant's approach to the following preferred requirements.

2. **Coverage.** WCG seeks recipients who plan for equity in the network's coverage area to the extent economically feasible.

This amendment provides more flexibility for applicants regarding the scope of coverage area of a particular municipal wi-fi network.

This amendment was approved by Project Director Rich Calhoun, Georgia Technology Authority, 3:30 PM, May 31, 2006.
